THE OPPORTUNITY

A clear route into physical gold activity

Bariqi Synergy Ventures FZ-LLC and ALL IN ONE GBD BULLION TRADING L.L.C. have formed a strategic partnership to offer selected investors a structured opportunity to participate in physical gold mining and trading. The partnership combines Bariqi's investor relationship management, coordination and monthly reporting framework with ALL IN ONE's operational expertise. Clear roles, direct corporate banking and documented processes strengthen transparency, accountability and security throughout the investment journey.

Simple principle: Capital is deployed into real gold activity. Profit participation arises only when actual realised net profit is generated.

Bariqi Synergy Ventures:

Bariqi acts as the commercial introducer, facilitator and ongoing client relationship manager. We coordinate the client journey, support communication and provide an individual monthly update for each investment.

Bariqi does not receive, hold or control investor funds. Capital and profit distributions pass directly between the investor and ALL IN ONE through verified bank accounts.

ALL IN ONE GBD BULLION TRADING L.L.C:

ALL IN ONE is the operating partner responsible for the physical gold mining and trading activity, including operational management, logistics, compliance and the calculation and distribution of realised profit.

All gold acquired or held within the opportunity is held under ALL IN ONE GBD BULLION TRADING L.L.C.

The investor:

The investor selects one of the available products and provides the agreed capital directly to ALL IN ONE. The investor has no day-to-day operational responsibility.

INVESTMENT OPTIONS

Choose the scale that fits

The three products below provide different levels of participation. USD and AED are accepted. Where funding is made in AED, the applicable AED equivalent is confirmed at the time of funding.

Each product is funded at the full stated amount; partial funding is not available.

Product	Investment amount	Projected monthly venture net profit*	Estimated investor return*
1	USD 600,000	3.5% - 4.1%	3.5% - 4.1% USD 21,000 - 24,600
2	USD 1,200,000	4.1% - 4.5%	4.1% - 4.5% USD 49,200 - 54,000
3	USD 2,250,000	5.0% - 6.0%	5.0% - 6.0% USD 112,500 - 135,000

*Projected net profit percentages shown already reflect the agreed profit-sharing calculation. Estimated investor return uses the same percentages and corresponding monthly USD illustration. Projected figures are management estimates based on current operating assumptions and are not audited historical performance, fixed returns or guarantees.

Profit-sharing approach:

Actual realised net profit is allocated according to the amount invested and then shared 50% to the investor and 50% to ALL IN ONE. Capital may be pooled operationally, while each investor's allocation and reporting remain individual.

Operating timetable:

The expected setup period is 45–60 days after cleared funds are received. Trading begins on the first day of a month. Profit is calculated at month-end and, where profit has been realised, distribution may be made on the 30th, 31st or 1st.

First distribution: Subject to actual realised profit, the first distribution is expected no later than 90 days after cleared funds are received.

THE BARIQI EXPERIENCE™

From introduction to monthly reporting

Our role is to make the client journey clear, professional and personal while ALL IN ONE remains responsible for the underlying operation.

01 Private introduction

We explain the opportunity, the available products and the respective roles of Bariqi and ALL IN ONE.

02 Product selection

The client selects the appropriate investment product. A face-to-face meeting in Dubai, or a digital meeting, can then take place with the facilitator and trader to discuss the opportunity and verify and sign the relevant documentation.

03 Direct funding

Once Step 2 has been completed, the funds can be transferred directly to the designated investment bank account of ALL IN ONE GBD BULLION TRADING L.L.C.

04 Welcome and onboarding

The client receives a Welcome to Bariqi message introducing The Bariqi Experience™ and the ongoing communication process.

05 Individual monthly update

Each client receives a concise monthly report covering the general activity, realised profit attributable to their investment, their profit allocation and the distribution status.

What clients can expect:

Direct communication. A named Bariqi relationship contact throughout the investment.

Individual reporting. A monthly update prepared for the client's own investment.

Clear separation of roles. Bariqi manages the relationship; ALL IN ONE manages the gold operation and payments.

BEFORE YOU PROCEED

Important information

This is a private information brochure intended to provide a simple overview. It does not contain the full terms of any product and does not create a binding obligation.

No guaranteed return:

All figures and percentages in this brochure are projections for illustration only. They are not fixed returns, interest payments or guarantees of future performance.

Sharia structure:

The opportunity is structured on a Mudarabah basis: the investor provides the capital and ALL IN ONE manages the agreed gold mining and trading activity. Any actual realised net profit is shared in the agreed proportions, with no fixed interest payment or guaranteed return.
