Transparent terms, protected by guaranteed payment.

Bariqi's compensation framework protects introducers through guaranteed payment mechanisms. The standard approach for each opportunity type is outlined below. Specific terms are agreed in writing before proceeding.

Gold Trading Facilitation

Introducer commission: 0.5 percentage-point of introduced capital per month

The introducer receives 0.5% of the introduced capital per month from the realised profit allocation, while the remaining return goes to the investor. The three standard levels work out as follows:

LEVEL	INVESTMENT	GROSS PROJECTED RETURN	INTRODUCER (0.5%)	INVESTOR NET RETURN
1	€600,000	3.5%–4.1% €21,000–€24,600/mo	€3,000/mo	3.0%–3.6% €18,000–€21,600/mo
2	\$1,200,000	4.1%–4.5% \$49,200–\$54,000/mo	\$6,000/mo	3.6%–4.0% \$43,200–\$48,000/mo
3	\$2,200,000	5.0%–6.0% \$110,000–\$132,000/mo	\$11,000/mo	4.5%–5.5% \$99,000–\$121,000/mo

€600K INTRODUCED €36,000 per year · €3,000/mo	\$1.2M INTRODUCED \$72,000 per year · \$6,000/mo	\$2.2M INTRODUCED \$132,000 per year · \$11,000/mo
--	---	---

Example, \$2.2m level: if trading generates 5% (\$110,000), the introducer receives \$11,000 (0.5%) and the investor receives \$99,000 (4.5%). At 6%, the introducer still receives \$11,000 and the investor receives \$121,000 (5.5%). Commission is paid by Bariqi from the realised monthly profit allocation, guaranteed and administered within 30 days of month-end where generated.
